## Why hire a professional?

A good wedding DJ is an investment in the success of your wedding. The majority of the success of your wedding reception will be due to the entertainment you choose. If you have low quality entertainment your guests will not have a very good time and will most likely leave early.

A professional wedding DJ cares about the success of your reception! A Professional DJ is so much more than a DJ.

Our DJs will act professionally at all times

When you are booked with us, the quoted price will never increase even if our prices do

All calls or emails will be returned promptly the same or following day

You will receive our best performance possible

Your DJ will arrive on time and be ready to perform at the time reserved

Your personal and event information will never be distributed to future clients for our benefit

We will not have banners or advertisements at your event

We guarantee we will perform at your event unless you cancel our services
